Editorial

After an enthusiastic response to inaugural issue of Journal of ISAS, we are bringing out the second issue of our journal with reviews, research articles and short communication. It contains an exhaustive review on applications of nanoparticles in medicine along with other research articles wherein various techniques have been used as an analytical tool to explore research in different fields, at the end a short review on “Nuclear Analytical Techniques” booklet is included. I assure you that “Journal of ISAS” will be always innovative providing a special space for scholarly works representing the integration of all branches of science.

I would like to express my sincere gratitude towards Dr. P.P. Chandrachoodan, President ISAS; Dr. Raghaw Saran, Vice president ISAS and Chairman, Advisory board of Journal of ISAS for their guidance, inspiration and support at each stage of journal progress. I wish to express my special thanks to Editorial board members: Dr. Vijayalaxmi Adya and Dr. Vinay Bhandari for their continuous cooperation. Cooperation from Editorial and Advisory board members and reviewers is gratefully acknowledged. I congratulate all the contributory authors for their articles in this issue. My sincere thanks are due to Kailash Gharat, Shivani Kantak, Vaibhav Parse and Smruti Adya for their technical support.

I invite all ISAS Members from different parts of our country to go through both the volumes and contribute towards forthcoming issues along with their colleagues and students.

Looking forward for your response and articles in future issue.
